- St. Clair County: 1 male 60s, 1 female 70s
- Whiteside County: 1 female 60s
- Will County: 1 male 50s, 1 female 90s
- Winnebago County: 1 male 80s, 2 females 90s

Currently, IDPH is reporting a total of 130,603 cases, including 6,185 deaths, in 101 counties in Illinois. The age of cases ranges from younger than one to older than 100 years. Within the past 24 hours, laboratories have reported 22,325 specimens for a total of 1,122,327. The preliminary seven-day statewide positivity for cases as a percent of total test from June 4 –June 10 is 4%.

Following guidance from the Centers for Disease Control and Prevention, IDPH is now reporting both confirmed and probable cases and deaths on its [website](#). Reporting probable cases will help show the potential burden of COVID-19 illness and efficacy of population-based non-pharmaceutical interventions. See [CDC definition](#) of a probable case on its website. IDPH will update these data once a week.

\*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in real-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered. Information for a death previously reported has changed, therefore, today's numbers have been adjusted. For health questions about COVID-19, call the hotline at 1-800-889-3931 or email [dph.sick@illinois.gov](mailto:dph.sick@illinois.gov).
