Currently, IDPH is reporting a total of 1,059,324 cases, including 18,049 deaths, in 102 counties in Illinois. The age of cases ranges from younger than one to older than 100 years. Within the past 24 hours, laboratories have reported 107,156 specimens for a total 14,564,776. As of last night, 3,446 in Illinois were reported to be in the hospital with COVID-19. Of those, 712 patients were in the ICU and 386 patients with COVID-19 were on ventilators.

The preliminary seven-day statewide positivity for cases as a percent of total test from January 8–14, 2021 is 6.5%. The preliminary seven-day statewide test positivity from January 8–14, 2021 is 7.7%.

As of last night, 726,475 doses of vaccine were delivered to providers in Illinois, including Chicago. In addition, approximately 268,525 doses have been allocated to the federal government’s Pharmacy Partnership Program for long-term care facilities. This brings the total Illinois doses to 995,000. IDPH is currently reporting a total of 447,348 vaccines administered, including 56,624 for long-term care facilities. The 7-day rolling average of vaccines administered daily is 27,125 doses.

*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in real-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered. Information for deaths previously reported has changed, therefore, today’s numbers have been adjusted. For health questions about COVID-19, call the hotline at 1-800-889-3931 or email dph.sick@illinois.gov.
